Brunsdon has been providing independent, innovative corporate insurance solutions for all types of businesses since 1932.

In today's highly competitive and crowded marketplace, we think that makes us rather special. Because we believe when it comes to commercial insurance, nothing beats experience.

With a collective expertise across a wide spectrum of trade sectors, we frequently exceed our own quality standards to deliver consistent, high-end, but cost-effective, business solutions.

We love what we do. Nearly a quarter of our workforce has been with us for over 20 years. That's not just dedication. That's enthusiasm.

Risk Management

A fundamental first step in our process. We'll go out of our way to gain a global appreciation of your company, its demands and requirements.

Our team members will always be there for you on a one-to-one basis. We'll look after your best interests and see to it that you get the right protection for your business.

If you need to make a claim, our active claims management service sets benchmark standards. Quite simply, we'll support you throughout the process to help you achieve prompt and fair resolution.

And we'll build that special type of relationship which will allow on-going dialogue to make sure your insurance programme remains flexible and keeps pace with your company's growth.

A LONG-STANDING, AMICABLE RELATIONSHIP...

As far as we're concerned, there is no such thing as a standard policy. We consider that each client has unique risk management and insurance needs.

Our preferred status with the leading insurance companies enables us to design and deliver the specialist, custom programme that is right for you. Bespoke, on time and within budget.

And our service is nothing if not personal. We believe in regular face-to-face meetings, we'll offer Health & Safety and Risk Management surveys and we'll tailor your programme to address potential problem areas.

That's what we mean by smarter solutions.
